An oral consent to take, keep and use personal information, photographs, video and audio for educational and promo purposes is to be used is required from an individual person, except those taken in public places (i.e. a street or market), if the photo, video, audio or story is shared with the public (outside of the Child Sponsorship program).

Every reasonable effort will be made to obtain such consent, for any of the circumstances where consent is required; however, desperate circumstances (i.e. a disaster) may preclude the obtaining of such consent.
